

Award Signs and Business Gifts

PRESENTATION #1397 for Award Planning
Working with us presentation

Working With Us

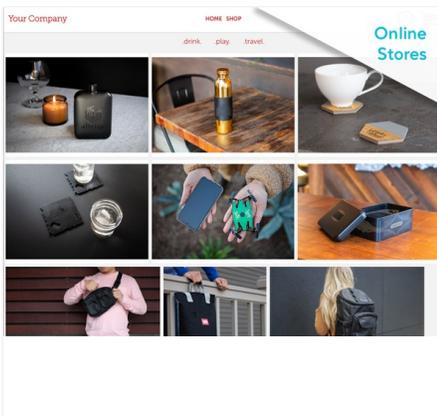

Working With Award Signs and Business Gifts

Our platform allows you to engage with us digitally throughout your entire ordering experience, as well as having access to current information regarding progress on your project.

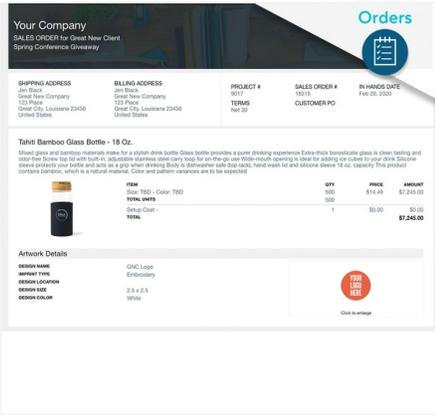

Easy Feedback on Ideas

Our presentations are curated to your project needs and are really easy to use. You can comment on the products you like directly in the presentation and we will be notified. If you like what you see, you can select the products with 1-click to add them to an order.

An Online Shopping Experience

We offer online shops to provide you with a frustration-free ordering experience, eliminate unnecessary back-and-forth with pre-approved artwork, and speed up the order process. Plus, you'll receive your orders faster!

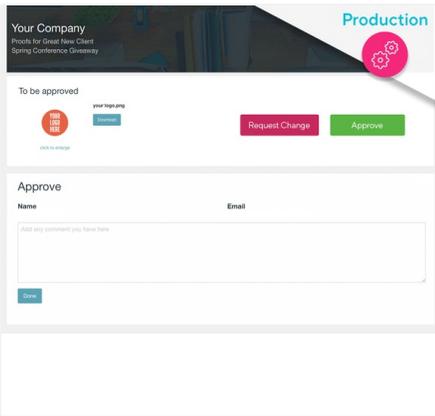

1-Click Sales Order Approval

When you're ready to place an order with us, we make it as easy as the click of a button.

On your Sales Order, you will be able to:

1. Review the addresses, products, sizes, colours, and artwork details.
2. Approve the order by clicking the green "Approve" button.
3. Request a change if anything needs updating by clicking the red "Request Change" button at the bottom.

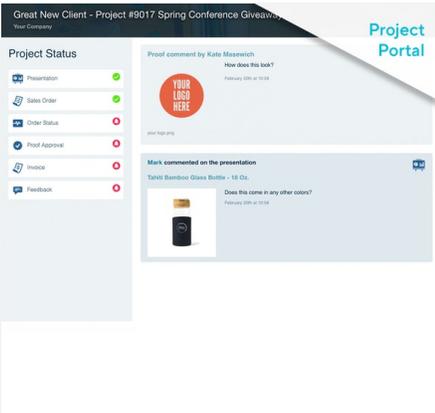

We will get an immediate notification, so work can commence on your order immediately!

Projects Go Into Production Faster

Managing proof approvals during the production process is as simple as clicking Approve or Request Change.

If you have any comments you want to include, these will be communicated to us and will also be displayed beside the proof.

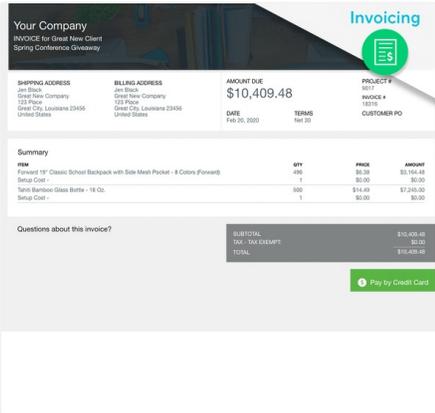

Everything You Need Is In One Place

When you start a project with us, we will also include a link to your project portal.

This portal will show you the history of the entire project communications and show you how your order is progressing.

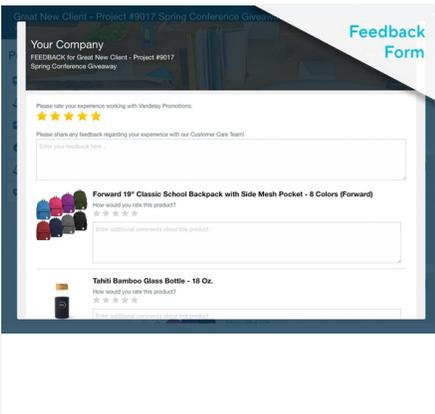

In the portal, you will also have access to Order Status where you can see where your order is at in the production process, as well as accessing Tracking information once the order has shipped out.

Easy Invoicing and Payment

Invoicing is also very straightforward.

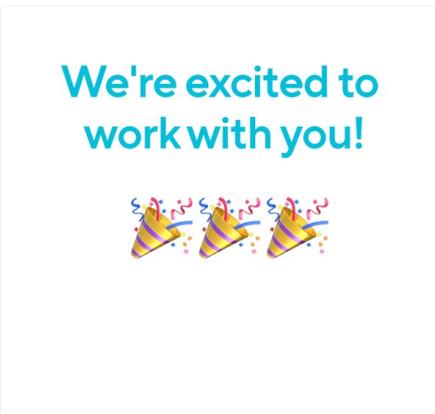

If your terms enable you to do credit card payment, there will be a 'Pay by Credit Card' button on the bottom of the invoice.

Provide Feedback

Your ordering experience is important to us. If you've had a good experience or a bad one, we want to hear about it!

Your project portal will contain a feedback form to tell us how we did, how the products turned out and if there is anything we can improve on.

Let's Make Some Magic!
